# WHY ?

With the advancement in the field of medicine, more and more people with impaired hearing are able to get treated.

After having to deal with hearing impairments for some time, it is challenging to learn quickly and integrate to the daily life.

# IDEA

An interactive feedback platform for people with impaired hearing to practice speaking to ensure a smooth integration to the community

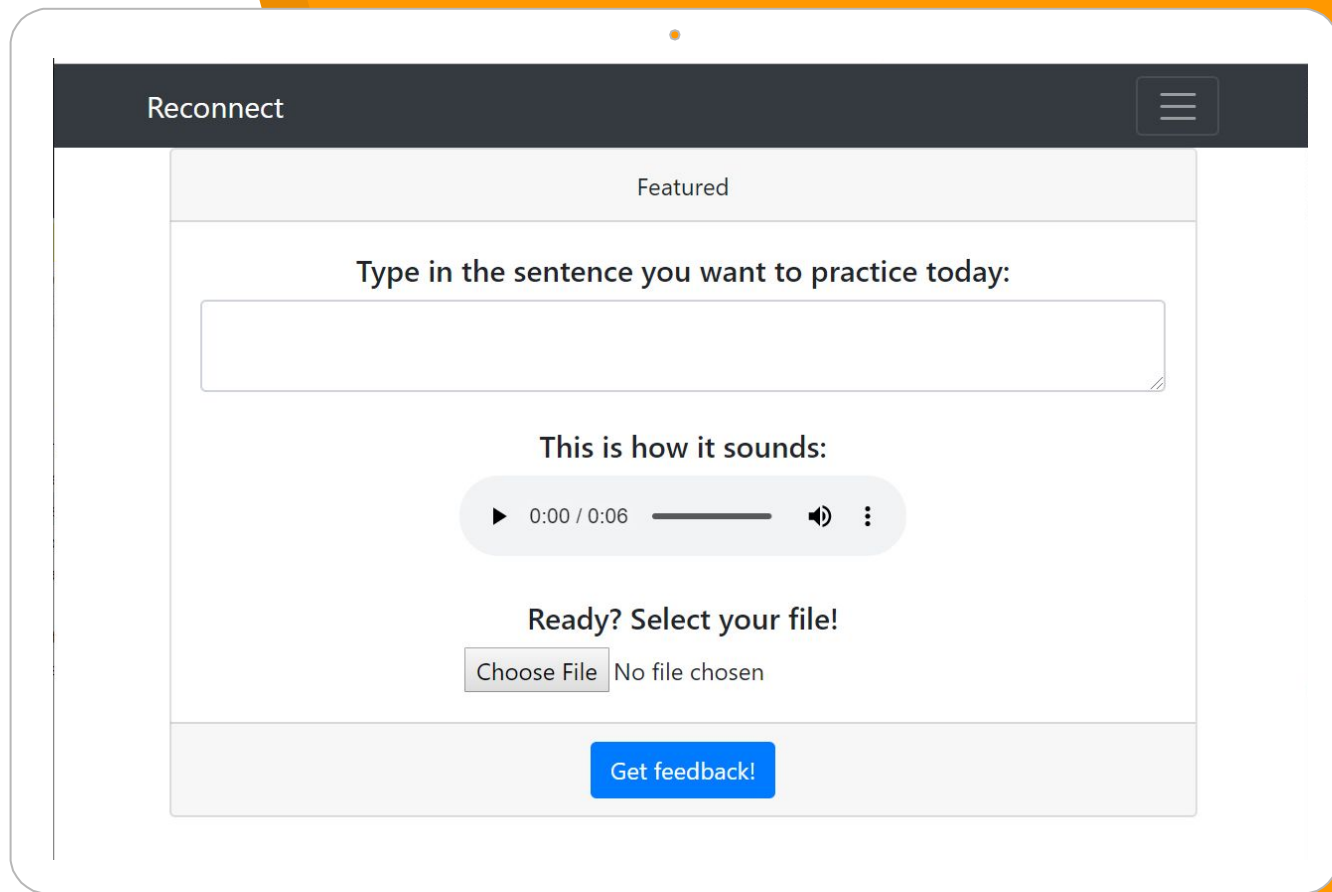

# HOW ?

Feedback is based on:

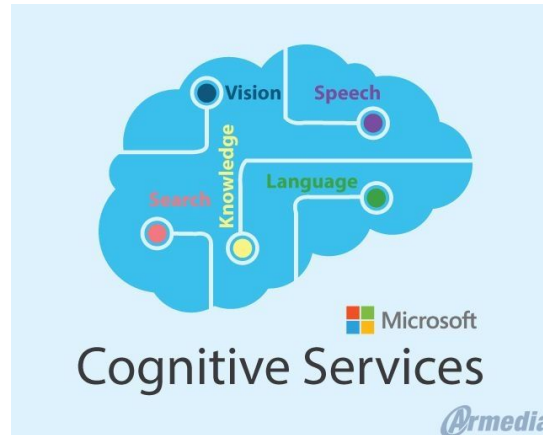

1. **Pronunciation correctness**
2. **Speed regulation:**
  - a. Detect breaks
  - b. Compare overall speed
3. **Amplitude regulation**

# THE PROJECT

# TOOLS

# GOALS

- Turn it into a learning platform
- Develop guided courses
- Make it multilingual
- Implement it for smartphones
- Use it to learn foreign languages

**Thank  
You !**
